

PROPERTY MANAGEMENT & FACILITIES

Improve the view. Plan the disruption.

Compare restoration and replacement for selected appearance concerns in occupied buildings.

A PRACTICAL BUSINESS CASE

TIME

01

Coordinate selected restoration work around occupancy and site operations.

COST

02

Compare suitable repair areas with replacement, access and interior-protection requirements.

QUALITY

03

Set a clear appearance target and inspect the completed work under agreed conditions.

WHEN RESTORATION IS WORTH EVALUATING

Visible glass damage affects how a property is experienced. Start with an assessment that considers appearance, access, occupants and the operating plan.

TYPICAL CONDITIONS TO ASSESS

- Mineral deposits and staining
- Graffiti scratching
- Chemical surface damage
