**GlassRenu Now Available on WindowCleaningResource.com**

*The Industry's Premier Glass Repair System Joins the Web's No. 1 Destination for Window Cleaning Professionals*

PACHECO, Calif., Sept. 10, 2009 – GlassRenu®, manufacturers of the industry's premier solution for removing scratches and acid damage of any size and depth from all types of glass, today announced its Contractor Grade Glass Renewal System is available for purchase on WindowCleaningResource.com. The company's partnership with the popular online destination for window cleaning professionals comes in response to demand from the industry for professional-grade tools to tackle the growing problem of acid-etch graffiti and glass damage in the field.

"Window cleaning professionals have the best sense of where glass repair is needed because they are up close-and-personal with glass damage every day," commented GlassRenu COO Cody Thomas. "GlassRenu is portable, simple-to-use and delivers results without distortion, making it easy for window cleaning professionals to integrate scratch removal into their services and add a new revenue stream to their business."

"Our members see the damage in the field and the revenue potential that exists by being able to address it. Our goal is to give our members access to the best tools available for them to do their job and that includes access to the most effective scratch removal technology in our marketplace," added Window Cleaning Resource CEO Alex Lambrinides. "GlassRenu is this technology and we welcome them to the community."

With more than 2500 members, WindowCleaningResource.com is the most popular online destination for professional window cleaners. Designed to be a comprehensive resource, the site combines a marketplace of the industry's top professional products and an interactive member forum, which receives more than 1500 posts every month. Members enjoy access to a network of professional window cleaning resources, like videos, free business document templates and discussion boards.

Developed in the field by a veteran glass technician, GlassRenu's Contractor Grade Glass Renewal System quickly removes glass damage without visible distortion. Up and running in under two minutes, the system uses dry, not wet, technology to remove even the most severe scratch or acid damage from all types of glass. The system's easy-to-learn, three-step process relieves users from having to switch between numerous tools and utilizes GlassRenu's patented RenuDisk® technology, so users can restore up to 15 square feet of glass per hour.

The Contractor Grade Glass Renewal System is available for purchase as a field-ready kit with all tools and enough materials to repair approximately 500 square feet of glass. To order, or for more information about the system visit [www.glassrenu.com](http://www.glassrenu.com), or [www.windowcleaningresource.com](http://www.windowcleaningresource.com).
